Slotmachine (#FMP 2011)

2011

01. This is a Slotmachine. You can win a prize.

02. Each piece you make with the Slotmachine (#FMP 2011) is an original artwork.

03. There are 6 Numbers:

04. Take a dice and roll it 4 times for each line, for a total of 16 times.

For example:

Line 1: 2 5 5 6

Line 2: 2 2 1 1

Line 3: 4 3 6 6

Line 4: 1 2 3 6

05. Use a heavy weight paper (if possible) for example 110lb or 180g/m<sup>2</sup>

06. Print the papers according to numbers you rolled. Just print them, you don't have to adjust anything. Don't worry if the printer tells you that the size is too big for the paper. Just hit print!

07. Hang them on a wall according to the numbers you rolled (like the example in point 4)

08. You don't have to cut anything. Just hang them nicely next to each other. The best would be to use a double sided adhesive tape.

09. If you want to have the possibility to win a prize you have to record yourself while rolling the dice. Use your webcam for example. Start by saying out loud «I start the Slotmachine (#FMP 2011)». Then roll the dice 16 times, if you get 3 of the same number next to each other in one of the 4 lines, you win a Digital Drawing (Ed. of 7) which you will get after sending me the video proof. If you have 4 of the same number in one of the 4 lines, you win a unique hand drawing which I'll send you by mail (proof necessary as well).

10. Send videos and pictures of the Slotmachine (#FMP 2011) to: [fmpirovino@gmail.com](mailto:fmpirovino@gmail.com)

11. Have fun and Good Luck! FMP

Take a picture of the installed work and send it to: [office@curating.org](mailto:office@curating.org)

The photos of the installations will be collected and published.
