

Riikka Tauriainen

Shifter

2011

This is an image of a simple origami bird in the size of A0. Print the 16 pages on A4 size paper with any kind of printer available. Mix the pages and hang on a wall next to each other, for example in the form of A0. Make your own composition: turn the pages around and connect them as you like. Create a new creature, even if you could find a combination of a bird.

Take a picture of the installed work and send it to: office@curating.org
The photos of the installations will be collected and published.
